01

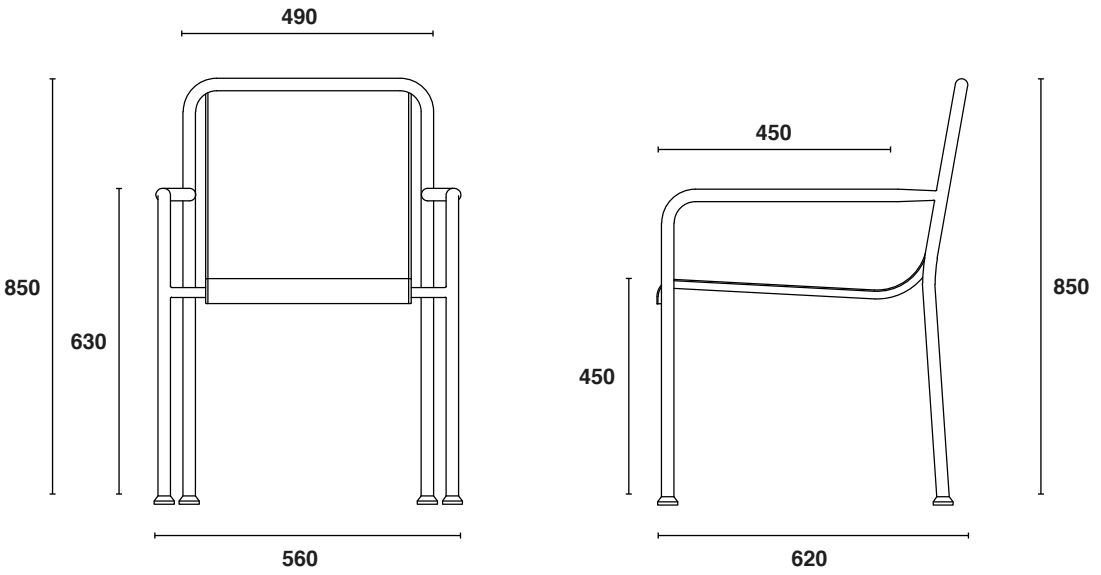

Stackable Chair I

OVERVIEW

Structure	Alluminum
Dimensions	H (mm) 850 W mm) 560 L (mm) 620
Use	Indoor/Outdoor
Main material	Metal
Materials	91% Aluminium, 8% Texteline, 1% Plastic
Adjustable feet (yes/no)	Yes

Dimensions

Materials

Structure - Powder coated paint

Sandstone

Seat & Backrest - Fabric

Sand Weave
F01

Stackable up to 4

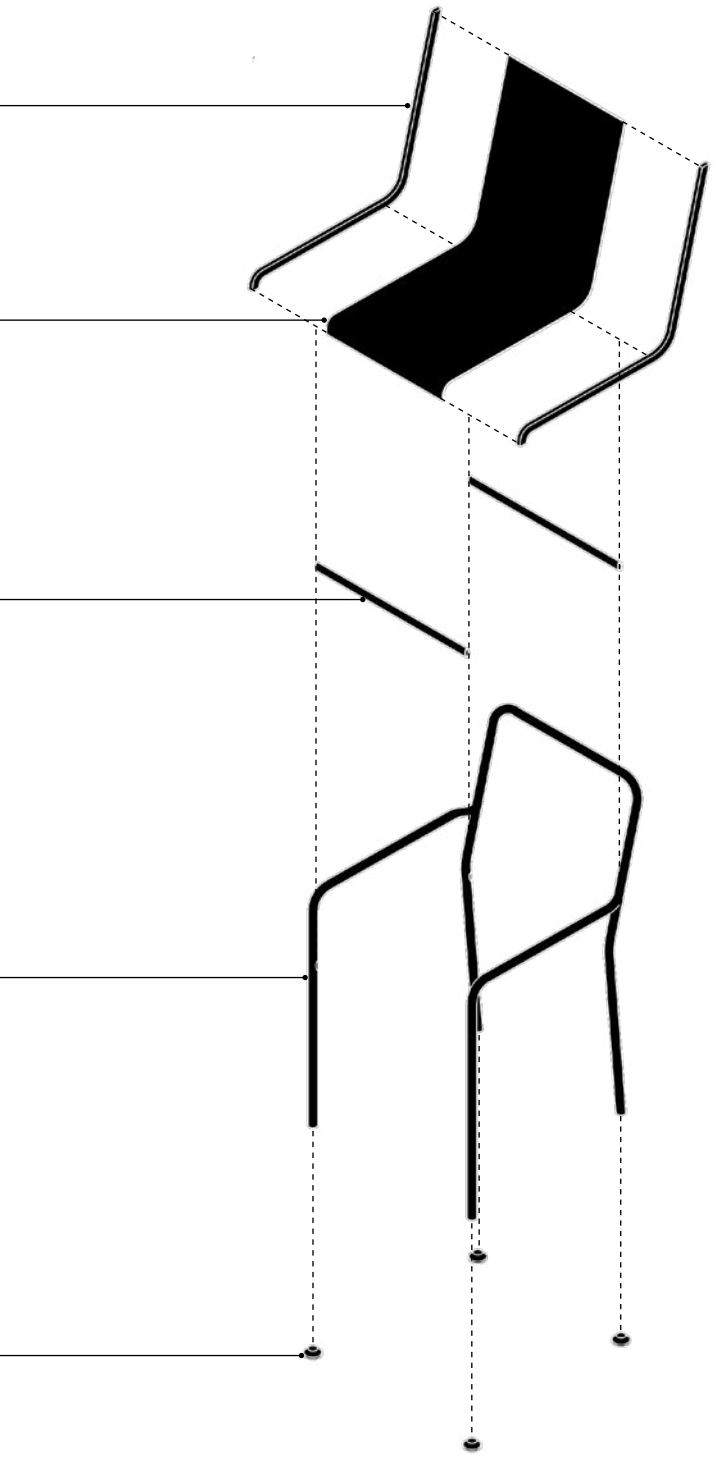

Fabric support: 15 × 10 mm rectangular aluminum profile, polyester powder-coated finish

Seat & Backrest: PVC-coated polyester mesh fabric, UV-resistant

Structure: Ø20 mm aluminium tube with powder-coated polyester finish

Structure: Ø25 mm aluminium tube with powder coated polyester finish

Feet: Ajustable feet with plastic pad

Pergola

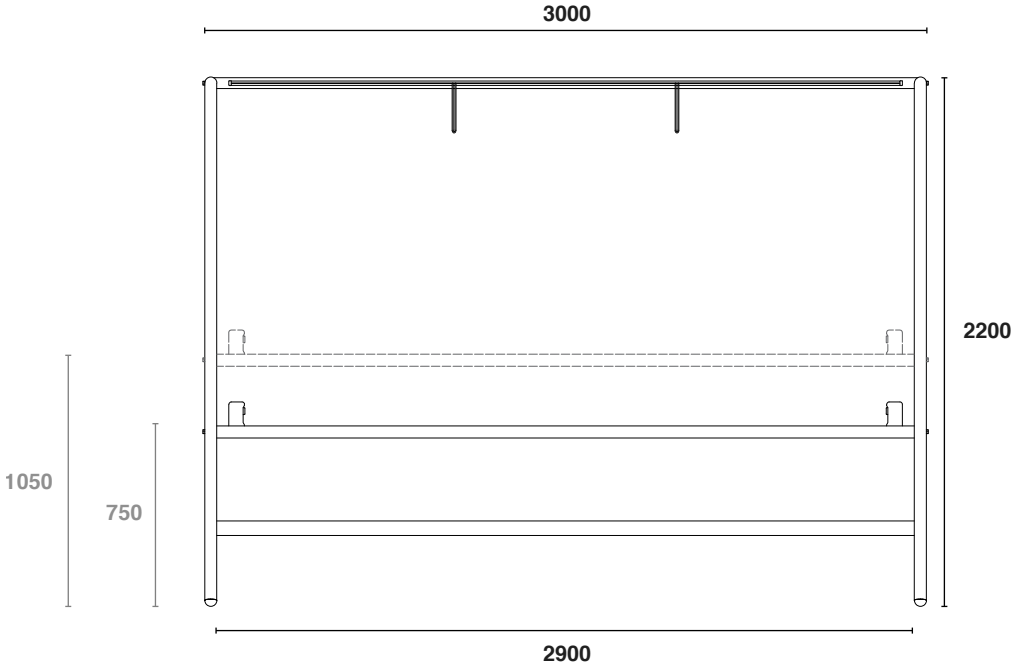

OVERVIEW

Structure	Alluminum
Dimensions	H (mm) 850 W mm) 560 L (mm) 1800
Table height	750 1050
Use	Indoor / Outdoor
Main material	Metal HPL
Leveling feet (yes/no)	Yes
Adjustable ceiling	Yes
Lightning	200 cm dimmable LED light
Sola Panel	Up to 182 WP
Charging module	USB-C module: 6 x 60w Schuko socket: 8 x 65w

Roof system: Powder-coated aluminum with a 90° pivoting retractable roof system

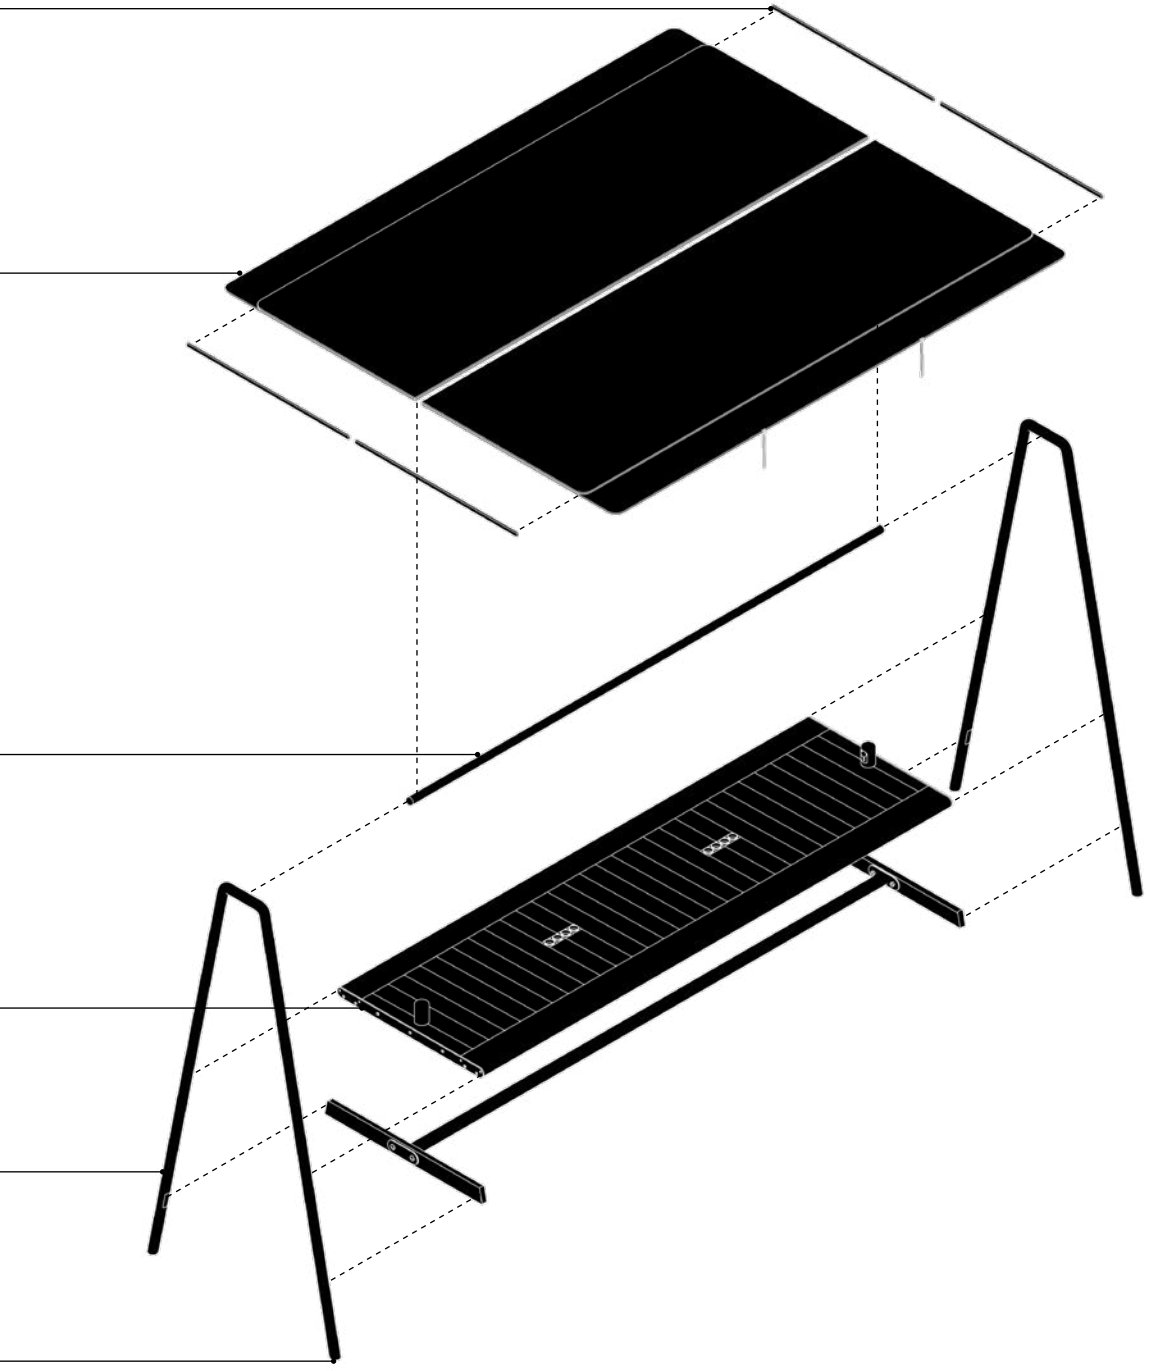

Solar panel: Solarix solar panel Up to 182 WP, with frost finish

Lightning: Ø45 mm aluminium tube with 200 cm dimmable LED light
Color temperature of 3000K (warm white)
100-300 VAC / 50-60 Hz

Tabletop: aluminium sheet with powder coated polyester finish. Available also with HPL top
Integrated interface device
Schuko socket (8 x 65w)

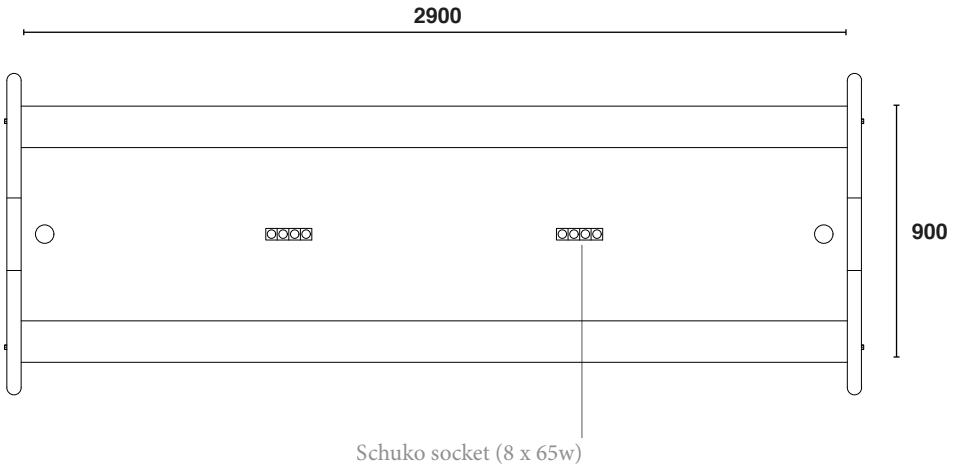

Structure: Ø50 mm aluminium tube with powder coated polyester finish

Feet: Leveling feet with plastic pad

Interface device

Roof opening sequence

Step 1

Release the safety locking mechanism.

Step 2

Pull the integrated handles to extend the roof canopy.

Step 3

Pull down the side panels to adjust the desired level of shade.
